

POST-OP INSTRUCTIONS FOR SCULPSURE:

- Your skin may be slightly pink to red immediately after treatment. This may last for a few hours.
- Following the SculpSure treatment you may experience swelling and tenderness that typically lasts for approximately 2 weeks, but may last longer. You may also experience tissue firmness or nodules. Nodules can last for days to several months, depending on the size of the nodule. This side effect will resolve on its own.
- The treated areas should be massaged two (2) times a day for five to ten (5-10) minutes.
- There are no lifestyle restrictions following your SculpSure treatment.
- It is recommended to increase your water intake after treatment.
- You may use ice packs or Tylenol according to package instructions to help ease tenderness.
- Contact us at 973-763-7546 with any questions or problems
