

After your Tattoo Removal Treatment:

It is crucial to the health of your skin and the success of your treatment that these guidelines be followed:

1. Apply an antibacterial ointment to the treated area.
2. Keep treated area moist with ointment for 10 days. Wash area gently (do not scrub) every day. Do not let the area dry out and form a scab or crust.
3. Do not scratch or pick at the wound.
4. The skin should heal normally in 7-12 days. Contact us if you have any concern.
5. For an open wound, apply an ice pack for 30-60 minutes for comfort. Cold aloe gel (without fragrance or dye) can be applied as well.
6. Avoid direct sun to the area for 6 weeks after treatment.
7. It is imperative that you use a sunscreen with an SPF of at least 30.

*Call the office immediately if you have any unexpected problems after the procedure.
